Summary

Versatile senior leader with 15 years of cross-functional experience spanning AI-powered software engineering, enterprise B2B sales, strategic finance, legal and compliance oversight, and global brand and marketing leadership. Fluent in English, French, and Japanese. Proven track record building large-scale systems, closing complex enterprise deals, driving data-driven strategy, and leading cross-cultural, multi-market teams.

Experience

VP, Strategy & Technology — Meridian Global Holdings, Bangalore / Paris / Tokyo

Jan 2016 – Present (9.5 years)

- Led AI-powered application development and large-scale system architecture for a platform serving 2M+ monthly users, including RAG-based search, agentic workflows, and API design.
- Built and managed backend systems in Python, Java, and Kotlin; owned data pipeline development and algorithm design for core recommendation and ranking systems.
- Drove B2B sales and new business development across France, Japan, and APAC, closing enterprise contracts and building long-term relationship management with Fortune 500 clients using Salesforce and CRM software.
- Led supply and demand-side acquisition and onboarding strategies, prospecting and onboarding new enterprise partners and professional hosts across three regions.
- Directed strategic finance and data analysis initiatives, building forecasting and analytics models that informed board-level growth decisions and pricing strategy.
- Oversaw legal and compliance coordination with outside counsel on cross-border commercial contracts, data privacy, and regulatory matters across EU and APAC jurisdictions.
- Built global brand media strategy and market presence campaigns, managing agency partners and cross-functional creative teams across four countries.
- Educated enterprise clients on product and technical changes, maintaining deep understanding of technical software integrations and API-level partner requirements.

Senior Manager, Business Operations & Growth — Northbridge Analytics, Singapore

Mar 2011 – Dec 2015 (4.8 years)

- Managed business operations and growth strategy for APAC expansion, prioritizing initiatives using structured time management and cross-team prioritization frameworks.
- Built data-driven decision making processes and internal analytics dashboards for operational and sales performance metrics.
- Supported account executive teams on commercial grower and enterprise hunter deals, contributing to hospitality and travel industry account strategy.

Software Engineer — Clearwater Systems, Bangalore

Jun 2009 – Feb 2011 (1.7 years)

- Developed backend services and REST APIs in Python and Java for a large-scale e-commerce order management platform.
- Contributed to algorithm design for inventory allocation and search ranking systems.
