SUMMARY

Computer Science undergraduate with experience in building AI-powered and full stack applications using React, FastAPI, Firebase, Node.js, and TypeScript. Developed personalized recommendation workflows and scalable backend services. Strong Foundation in Data Structures, Algorithms. Interested in AI applications, intelligent automation, and modern software systems.

EDUCATION

K.R. Mangalam University

Bachelor of Technology in Computer Science Engineering — CGPA: 8.18 (current)

Sep 2023 – Jun 2027

Sohna, Gurugram

PROJECTS

Vestra | React Native, Expo, TypeScript, Firebase, Firestore

Jan 2026– Present

- Developed a mobile application that delivers outfit recommendations based on wardrobe inventory.
- Built a digital wardrobe management system enabling users to upload, organize, search, and categorize clothing items with cloud synchronization through firebase firestore.
- Implemented secure authentication workflows using firebase authentication.
- Designed recommendation refinement features including outfit scoring, preference based personalization, item locking, advanced search, onboarding workflows, and profile management.
- Optimized application architecture using reusable React Native components, Context API state management and integrated backend to generate personalized outfit suggestions and weekly outfit plans.
- [Github](#)

Witsverse | React, Node.js, Solidity, Smart Contracts

June 2024 – Present

- Designed and developed a responsive web app for real-time strategy games powered by decentralized technologies.
- Implemented secure Web3 wallet integration (MetaMask) for token-based interactions.
- Developed and deployed smart contracts using Solidity on the Polygon blockchain.
- Architected a fully serverless backend using AWS Lambda and Node.js for scalable and low-cost execution.
- [Live Site](#)

TECHNICAL SKILLS

Languages: C++, Python, JavaScript

AI Application Development: AI Powered Recommendation Systems, Backend Development, Personalization workflows

Framework and Technologies: React Native, React, Node.js, Solidity, Firebase, Expo

Databases: MySQL, MongoDB, Firestore

Concepts: Data Structures, Algorithms, OOPS, [AI Fundamentals\(AI-900\)](#)

Tools: Git, VS Code, Postman, Figma

ADDITIONAL INFORMATION

Languages: English, Hindi

Coding Proficiency: LeetCode Rating 1637 - [Profile](#) | **Codeforces:** Rating 959 - [Profile](#)

Certifications: C++ (Udemy), Data Structures and Algorithms, Microsoft Certified: [\(AI-900\) Fundamentals of AI and ML](#)

Hackathons: Participated in university-level hackathons, coding competitions, CS clubs and student societies

Strengths: Problem Solver, Fast Learner, Effective Communicator, Team Player
